

United States of America
Department of Transportation Federal Aviation Administration
Supplemental Type Certificate

Number SA01800SE

This certificate, issued to:

**Seaton Engineering Corp.
217 West Garden Court
Spokane, WA 99208**

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 23 of the Code of Federal Regulations.

Original Product-Type Certificate Number: See AML for list of approved aircraft
Model: Models and Applicable Airworthiness Regulations

Description of the Type Design Change: Fabrication and installation of new or replacement of existing instrument panel lights dimmer control. Installation in accordance with Seaton Engineering Corp. FAA approved Master Drawing document 9750-002, dated May 10, 2007, or later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to only the aircraft listed on the approved model list. This approval should not be extended to models on which other previously approved modifications are incorporated unless it is determined by the installer that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft.

A copy of this certificate must be maintained as part of the permanent records of the modified aircraft. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: November 3, 2006
Date of issuance: October 30, 2007

Date reissued: December 1, 2011
Date amended:

By direction of the Administrator

Mr. Jeff Christensen
President
Seaton Engineering Corp.
217 West Garden Court
Spokane, WA 99208

Dear Mr. Christensen:

The Federal Aviation Administration (FAA) completed its evaluation of the data submitted for Revision G, dated June 5, 2011, of the Master Drawing List, Document Number (No.) 9750-002, for the fabrication and installation of a solid state lamp intensity controller, Supplemental Type Certificate (STC) SA01800SE. We find that you have satisfactorily demonstrated compliance with the applicable certification regulations. Accordingly, Revision G, dated June 5, 2011, of the Master Drawing List, Document No. 9750-002, is approved for the installation of a solid state lamp intensity controller on multiple model aircraft.

Since I am very much interested in the service we provide to the aviation community and the general public, it would be helpful if you would provide your thoughts and comments regarding how the approval process went. To gather this information, we have enclosed a short survey (with a self-addressed, stamped envelope) that I hope you will fill out and return. You will note that the return envelope is addressed to me. You may rest assured that your comments will receive my full attention and that I will hold your comments in strict confidence, should you request I do so. Please note that this customer service survey is common to all Aircraft Certification Offices within the FAA's Aircraft Certification Service and is aimed at enabling the Aircraft Certification Service to deliver the best services to each of our customers.

If you have any questions concerning this matter, please contact Mr. Vince Massey of the Systems and Equipment Branch at telephone number (425) 917-6475 or through electronic mail at vince.massey@faa.gov.

Sincerely,

Ross Landes
Acting Manager, Seattle Aircraft
Certification Office

Enclosure
